Plan

API Management

Create

[Overview](#) [Plans](#) [Usage Information + Support](#) [Ratings + Reviews](#)

Create an API gateway and developer portal in minutes.

Turnkey solution for publishing APIs to external and internal consumers. Quickly create consistent and modern API gateways for existing backend services hosted anywhere.

- Provide API documentation and an interactive console
- Throttle, rate limit and quota your APIs
- Monitor health of your APIs and quickly identify errors
- Bring modern formats like JSON and REST to existing APIs
- Connect to APIs hosted anywhere on the Internet or on-premises and publish globally
- Gain analytic insights on how your APIs are being used
- Manage your service via the Azure portal, REST API, PowerShell, or Git repository
